

Date: _____

Plant Growth Model

Diagram

Draw a diagram showing the process of plant growth. Label the drawing with the terms **sunlight**, **water**, **carbon dioxide**, **oxygen**, and **plant matter**.

Date: _____

Plant Growth Model

Growth

1. What do plants need to grow?
2. Where do they get their energy?
3. What would happen if plants didn't have a way to get energy?
4. Where do plants get their matter?
5. What would happen to plants if they didn't have a way to get matter?
6. What would happen to animals if there were no plants to eat?
