

Tree Decomposition

Directions:

1. Cut apart the six pictures of the tree below.
2. Put the pictures in a sequence (in the right order) to show how the tree looks at each stage of decomposition.
3. Share your sequence with the other people in your group. You can change the order of your pictures if your group convinces you to.
4. Glue the pictures in the numbered spaces. Begin with the whole tree in the space labeled "1."
